

Team charter

We will be communicating regularly through facebook, and we will be using trello to keep a log of tasks we needed to do. We will keep on updating each other on our individual shared progress. In-person meetings will occur twice per week on tuesday and thursdays 11 am - 12 pm. We will also be committed to communicating regularly with our client and keep on informing them with our tasks on this project. We will always be honest with each other and request help from each other when needed. Individually, we will make the commitment for this project not for getting grades but for doing a humanitarian working saving lives in nepal. We will be committed to do our best to develop best possible solution for the client and achieve great achievements in the course.
